April 2020

1 Introduction

There is a theory which states that if ever anyone discovers exactly what the Universe is for and why it is here, it will instantly disappear and be replaced by something even more bizarre and inexplicable [2]. There is another model which states that this has already happened.

2 Methodology

This is the methodology section.

3 Results

This is the results section.

Figure 1: The Universe

4 Conclusion

“I always thought something was fundamentally wrong with the universe” [1]
